

TRIPLE AXLE TIRE WEAR TROUBLE SHOOTING

PSI, Tire Size & Rating and Tire Wear Location

Alignment

* Measure in inches (“):

From back of frame (NOT LIGHT BRACKET) to each (spring perch/yoke). **DO NOT USE U-BOLTS (on trailer frame) AS A POINT OF REFERENCE! USE ONLY THE CENTER OF THE MOUNTING HOLE!**

- * \emptyset - L4 _____ “ \emptyset - R4 _____ “
 \emptyset - L3 _____ “ \emptyset - R3 _____ “
 \emptyset - L2 _____ “ \emptyset - R2 _____ “
 \emptyset - L1 _____ “ \emptyset - R1 _____ “

1) What is the tire size and load rating?

2) Shade in each tire with type of wear as it is on the trailer on the diagram above.

EXAMPLE

ST225/75 R15

Load Range “D”

41

PSI
