VENTURE
VENTURE TRAILERS

Boat & Watercraft Trailer Catalog

Our state-of-the-art manufacturing facility, sitting on 10 acres of land in Baltimore, Maryland, is the largest of its kind on the East Coast. Across America, over 200,000 of our trailers are towing adventurers to the water's edge. We care deeply about our employees, customers, and products, and look forward to continuing what we do for generations to come.

WE KNOW BOATERS. WE ARE BOATERS.

**WE ARE
VENTURE
TRAILERS.**

Family owned and operated since 1988.

WHY CHOOSE VENTURE?

TRAILER FEATURES

We understand our customer's boating experiences begin out of the water, and that the quality and durability of their trailers is extremely important. That's why we include so many key features as standard equipment. It's one way we keep our standards of excellence as high as our customer's expectations.

*Some features are not standard on all models.
Please check with your dealer for additional information.*

WE ARE NMMA/NATM CERTIFIED

*For more information on the NMMA
and their trailer certification requirements,
visit nmma.org/certification/trailers*

*For more information on the
NATM and their compliance program, visit
natm.com/compliance-verification-program*

When you buy a NMMA/NATM Certified trailer, you gain the confidence of knowing it meets voluntary industry safety and construction standards because it has been meticulously inspected by a third-party professional. Venture Trailers has been a proud member of both certification programs since its inception.

PLUG & PLAY LIGHTS

Quick disconnect light terminals, along with our use of dielectric grease, makes for easy maintenance and a corrosion free application.

ALUMINUM DIAMOND PLATE FENDERS

Lightweight, durable and won't rust. Also a sharper look for your boat and trailer package.

HEAVY DUTY WINCH STRAPS

NO rusting. NO kinking. NO fraying. High capacity winch straps are safer and easier to operate.

D.O.T. COMPOSITE BRAKE LINE WITH BRASS FITTINGS

Enjoy the benefits of a non-corrosive and flexible brake line compared to steel brake lines.

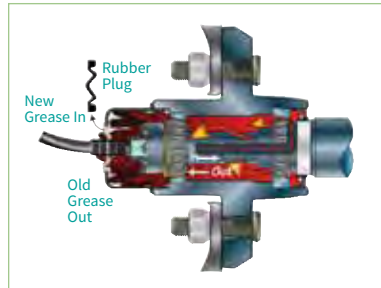

STEEL BELTED BIAS TIRES

Two or more layers of nylon cord PLUS two steel belt layers resulting in improved tire tracking, increased tread wear, longer tire life, reduced heat build up, and a smoother ride.

ELIMINATOR GALVX VENTED ROTOR DISC BRAKES

Aluminum calipers and the vented rotor design allows for cooler braking contributing to longer brake pad life. GalvX finish is perfect for both salt water and fresh water use.

SUPER LUBE SPINDLES

The Super Lube system provides for greater extended bearing life by thoroughly distributing grease throughout, and eliminates the need to disassemble the hubs and repack the wheel bearings by hand.

GLAVANIZED HARDWARE, U-BOLTS, WINCH STAND, AXLES, TONGUE AND MANY OTHER COMPONENTS

Keep your trailer looking newer longer with hot dip galvanized components. Better corrosion resistance than the alternative industry standard zinc.

The warranties set forth herein are the sole and exclusive warranties of Venture Trailers Inc. ("Venture") with respect to the trailers, and are made in lieu of all other warranties. There are no other warranties, express or implied, by operation of law or otherwise for the trailer, and Venture disclaims all implied warranties of merchantability and fitness for a particular purpose.

In no event shall Venture, its subsidiaries, affiliates, agents, or employees be liable for any incidental, indirect, special, or consequential damages in connection with or arising out of the purchase of the trailer, including, but not limited to, lost profits or revenues, loss of time, towing charges, travel expenses, lodging expenses, telephone charges, gas loss, damage to personal property, lost wages, loss of use of the trailer or any marine equipment, damage to marine equipment, costs of substitute marine equipment, or claims for such damages.

In no event shall Venture, its subsidiaries, affiliates, agents, or employees be liable for the negligence, gross negligence, or other intentional misconduct of any third party nor shall Venture be liable for its own negligence. The purchaser's sole remedy for any liability of Venture of any kind shall be limited to the repair or replacement of the trailer or trailer parts

LIMITED WARRANTY

Venture Trailers Inc. (“Venture”) warrants each new Venture trailer (“trailer”) to be free from defects in material and workmanship for a period of two years beginning from the date of original purchase by the original purchaser. Venture shall repair or replace at Venture’s sole option, without charge, any parts that are determined by Venture to be defective because of imperfect workmanship or materials within a reasonable time after the trailer is returned at purchaser’s expense to any Venture authorized dealer or distributor.

This warranty is extended to the original purchaser only and does not extend to any other persons to whom the trailer may be transferred. The use of any trailer as part of a rental fleet or for commercial purposes voids this warranty.

Provisions of this warranty shall not apply to any product found to have been modified or altered in any way, or to any defect or malfunction caused by damage, unreasonable use, or failure to provide reasonable and necessary maintenance. This warranty will not cover damage caused by overloading the trailer beyond stated capacities or the use of improperly installed weight distribution hitches. The formation of rust is not covered by this warranty due to the highly corrosive conditions to which a trailer may be exposed. This warranty does not cover winches, lights, couplers, brakes, tongues, jacks, springs, axles, and tires or wheels, as these items are warranted separately by their respective manufacturers. This warranty also does not cover defects, damage, or malfunctions caused by improper configuration by any dealer or distributor of the trailer.

Certain trailer components are considered wear items including, but not limited to: tires, bearings, seals, races, brake friction surfaces, and carpet. These items must be inspected, maintained, and replaced by the owner as necessary. Bearings, seals, and races are covered for 120 days from the date of purchase.

- ▶ This warranty is intended to comply with the Mangusson-Moss Warranty Federal Trade Commissions Improvement Act, as amended, and any provisions of this warranty or actions taken by Venture pursuant to this warranty shall be construed accordingly.
- ▶ Some states do not allow the exclusion or limitation of incidental or consequential damages, so those limitations or exclusions may not apply to you.
- ▶ This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
- ▶ Venture reserves the right to change models or specifications without prior notice.

TRAILER FEATURES

- ▶ Plug & Play Lights
- ▶ Aluminum Diamond Plate Fenders
- ▶ Heavy Duty Winch Straps
- ▶ D.O.T. Composite Brake Line with Brass Fittings
- ▶ Steel Belted Bias Tires
- ▶ Eliminator GalvX Vented Rotor Disc Brakes
- ▶ Super Lube Spindles
- ▶ Wheel Balancing
- ▶ Galvanized Hardware, U-bolts, Winch Stand, Axles, Tongue, and many other components
- ▶ National Marine Manufacturers Association and National Association of Trailer Manufacturers certified

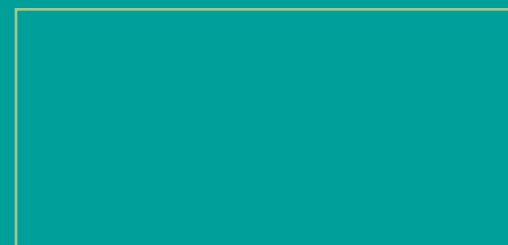

Some features are not standard on all models. Please check with your dealer for additional information.
